Inhalation Sciences provides additional information regarding recently announced service orders

Inhalation Sciences Sweden AB (ISAB) hereby provides additional information regarding the scope and timing of the two service orders announced on 19 November 2026, with a combined order value of approximately EUR 45,000 (approximately SEK 500,000).

- **Order 1:** A routine maintenance service valued at EUR 20,000. The service is expected to be carried out in mid-December 2026, with the exact date to be agreed upon with the customer.
- **Order 2:** A one-year service agreement valued at EUR 25,000, commencing in June 2027. Services under the agreement will be provided throughout the contract period in consultation with the customer.
