FOR IMMEDIATE RELEASE

Ginolis Expands Globally with First Asia Pacific Office in China

Suzhou, China

Ginolis Ltd, a leading provider of assembly automation and high precision liquid handling solutions for the diagnostic and medical device industries, today announced the opening of its first Asia Pacific office located at Century Financial Mansion in Suzhou, China.

The representative office will provide sales and technical support to Ginolis' customers in China and the Asia Pacific region. The company's intelligent desktop automation solutions, most notably the **Lateral Flow Device Assembly** (LFDA-3) system, have been very well received in China.

"The opening of our first office in Asia is a great milestone for **Ginolis**. The diagnostics and medical device market in Asia is rapidly growing and there is a great potential for Ginolis' automated assembly solutions," states CEO Teijo Fabritius, "We have a very experienced and capable local team in Suzhou that will help strengthen our position in China and help grow **Ginolis** globally."

From standard products to customized systems, **Ginolis** offers an extensive range of solutions based on its modular automation platforms. The company's innovative solutions are characterized by high precision, modularity and an ability to handle fluids on a nano-scale. **Ginolis** boasts patents in dispensing, micro fabrication and precision robotics.

Established in 2010, **Ginolis** is headquartered in Oulu, Finland with offices in San Diego, USA; Uppsala, Sweden and Suzhou, China. The company is privileged to work in co-operation with many of the world's leading diagnostic companies.
