

## **Courion Takes a Closer Look at Assessing the Risk of Identity and Access**

*New eBook provides insights into the risks associated with IT access*

**ROSWELL, GA, July 22, 2015** — IT security is filled with complexities and risks at every turn, but knowing and being able to assess those risks is an important exercise in creating a safe network. [Courion](#)<sup>®</sup>, the market leading provider of intelligent identity governance and administration (IGA) solutions, announced the availability of a new eBook that examines various risks faced by IT departments and reviews how identity and access management can help.

The eBook titled “Assessing the Risk of Identity and Access,” offers readers a detailed look at user access rights and the role auditing those rights can play in maintaining a secure network.

Readers will learn:

- What are the most common risks?
- What is identity and access governance?
- Do security standards and compliance help?
- How do you prepare for an attack?

The eBook is available today for download at:
