About Nel ASA | www.nelhydrogen.com
Nel is a global, dedicated hydrogen company, delivering optimal solutions to produce, store and distribute hydrogen from renewable energy. We serve industries, energy and gas companies with leading hydrogen technology. Since its foundation in 1927, Nel has a proud history of development and continual improvement of hydrogen plants. Our hydrogen solutions cover the entire value chain from hydrogen production technologies to manufacturing of hydrogen fueling stations, providing all fuel cell electric vehicles with the same fast fueling and long range as conventional vehicles today.

SAMFI-INVEST is a private French family holding company based in Normandy, France, that develops and invests in renewable energy power plants. The company is involved in transportation through the MALHERBE Group, the third largest French freight forwarder, as well as energy storage, real estate, and renewable energy. SAMFI-INVEST owns subsidiaries specialized in the development, commissioning and operation of large-scale energy projects. SAMFI-INVEST currently employs a staff of 40 high-skilled employees, mainly engineers and lawyers.

About H2V PRODUCT | www.h2vproduct.net
H2V PRODUCT was founded by Lucien Mallet and Alain Samson in 2016 to develop, build and operate green hydrogen production plants in the world. The company is focused on applications for the massive use of carbon-free hydrogen and its industrial objective is to produce and inject biogas and green hydrogen into the main natural gas pipeline in order to reduce CO2 impact and to store renewable energy production in the major gas transportation networks.

About Lucien MALLET Founder and CEO of H2V PRODUCT
Over 30 years of infrastructure experience, expert in project realisation. Lucien manage power plant construction in Europe. Overseeing O&M operations and EPC negotiation monitoring and due diligence. Graduate from the “Ecole des Mines”, specialized in energy and storage solutions.
