

New Estonia deal

Baltic Workboats, who are currently building three new patrol boats for the Estonian Police and Border Guard Board (EPG), has on behalf of EPG today placed an order of three GuardRunners and one RescueRunner Cradle with us.

The GuardRunners will be carried as deck boats on their new EPG patrol boats. EPG extends their current fleet of ten GuardRunners and they will now have a total of thirteen GuardRunners.

The procurement is co-financed by the European Union through the Internal Security Fund and the Estonian Ministry of Interior

We are delighted to see that our customers are appreciating our products to the extent that they return to invest in more units. Once again it proves that our customers have great use in their different operations for both the GuardRunners and RescueRunners", says CEO Kaj Lehtovaara.

The value of the order is approximately 160.000 EUR.
