## **Evolution extends Scientific Games partnership to expand exclusive Live Casino games portfolio**

**Evolution Gaming, leading provider of Live Casino solutions, has announced that it has extended its exclusive rights content partnership with Scientific Games.**

Under the original agreement, Evolution provides the live casino versions of two of Scientific Games' land-based poker titles: *Three Card Poker™* and *Ultimate Texas Hold 'Em®*, the latter exclusively in Europe.

Evolution has extended its rights to include world-famous titles that will further expand Evolution's live games portfolio over the coming years, including exclusive rights in Europe to *Three Card Poker* and *Let it Ride*.

Todd Haushalter, CPO of Evolution Gaming, said: "Extending our partnership with Scientific Games feels natural. We are the biggest Live Casino provider in the world and they are the largest proprietary table games supplier in the world, so offering their games in Live Casino to our partners for many years to come is a win-win. We already offer two of their great games, *Three Card Poker* and *Ultimate Texas Hold 'Em* – and now we will expand that to many more games and side bets."

He continued: "Scientific Games offers some of the greatest table games available anywhere in the world, and this partnership enhances our library and ensures that our customers and their players have the very best content available to them."

Bob Hays, Vice President Commercial, B2B, Interactive at Scientific Games, commented: "The Scientific Games team is excited to extend this strong relationship and bring *Shuffle Master®* games to more players. Our continued partnership with Evolution is an opportunity to enhance our presence in the live dealer arena through continued collaboration and innovation. There's a lot of opportunity in the table games space, and this relationship will bring our live dealer presence and Evolution's library to the next level."
