## **DBP's first purchase order from Closter Pharma**

As previously announced, Double Bond Pharmaceutical and CLOSTER PHARMA SAS (Colombia) signed a distribution agreement for Temodex in Mexico, Brazil, Colombia, Peru, Ecuador and Costa Rica in September 2018. At the beginning of November, Double Bond Pharmaceutical and Closter Pharma organized an exchange of experience where eight doctors from leading hospitals in Colombia were able to meet and exchange experience with developers, manufacturers and users of Temodex in Minsk, Belarus. For three days, they had the opportunity to be with their Belarussian colleagues and see with their own eyes how Temodex is manufactured and used on site. As the next step of the collaboration, Double Bond Pharmaceutical has now received its first purchase order for 10 units of Temodex.

"We are very pleased that cooperation with our Latin American partners continues to progress and has already generated a purchase order. There is a great interest in Temodex in different parts of the world and we are pleased that we can provide doctors to patients with brain cancer with our innovative product," commented Igor Lokot, CEO of Double Bond Pharmaceutical, "Latin America is a big market and can generate a lucrative business for Drugsson AB "

**More about Temodex:** Temodex, which is a locally acting formulation of temozolomide developed by RI PCP in Minsk, Belarus, is registered for marketing as the first-line treatment of glioblastoma within Belarus since 2014. Temodex was acquired by DBP in autumn 2015 and is now being prepared to pass through all the tests and trials required for registration within the EU and globally. **Video presentation:** <https://youtu.be/iweOQPq316o>

**Information on Double Bond Pharmaceutical International AB**

DBP is a pharmaceutical company with the primary focus on development of therapies against cancer based on the company's own developed drug delivery technology BeloGal®. The company was granted Orphan Drug Designation status by European Medicines Agency (EMA) in June 2015 for its first product, SA-033, for treatment of hepatoblastoma. Double Bond Pharmaceutical acquired rights to Temodex, a drug registered in Belarus for treatment of brain tumours, in October 2015, and was

granted Orphan Drug Designation status by EMA for in July 2016 for this formulation of temozolomide for the treatment of glioma. The formulation is now being further developed for registration in EU and globally and has a working name SI-053 in DBP pipeline.
