

RepRisk celebrates its 10-year anniversary

2016 marks 10 years of RepRisk providing the most comprehensive and dynamic research on environmental, social, and governance (ESG) risks

Zurich, Switzerland – June 15, 2016 - RepRisk is delighted to mark its 10-year anniversary as a leading provider of dynamic business intelligence on ESG risks.

The story of RepRisk is about how an idea – increased transparency on ESG risks – has changed the way that companies do business.

It began in 2006 when a global bank requested a list of 100 companies severely exposed to ESG risks. In response, RepRisk developed the proprietary research framework that has been used over the last decade to build the world's most comprehensive database on ESG risks, delivering curated data on a daily basis.

Today, RepRisk's flagship ESG Risk Platform provides risk profiles for over 65,000 listed and non-listed companies and 17,000 projects from around the world, as well as over for all sectors and countries.

RepRisk is proud to now work with close to 150 of the world's leading financial institutions and corporates – which rely on RepRisk as a due diligence, research, and monitoring tool in risk management, investment management, sustainability, and supply chain management. Furthermore, RepRisk is honored that its research contributes to the work of leading sustainability organizations including the Dow Jones Sustainability Index (DJSI), the Carbon Disclosure Project (CDP), FTSE4Good, and SASB.

"RepRisk is extremely proud to celebrate a decade of continuous progress and innovation," says Philipp Aeby, CEO of RepRisk. "We remain dedicated to our mission of empowering our clients to achieve long-term success through the transparency and effective risk management tools we deliver."

About RepRisk:

RepRisk is a leading business intelligence provider, specializing in environmental, social, and governance (ESG) risk analytics and metrics.

Harnessing a proprietary, systematic framework that leverages cutting-edge technology and hands-on human intelligence in 15 languages, RepRisk curates and delivers dynamic risk information for an unlimited universe of companies.

Since 2006, RepRisk has built and continues to grow the world's most comprehensive ESG risk database, which serves as a due diligence, research, and monitoring tool in risk management, compliance, investment management, corporate benchmarking, and supplier risk. The database currently includes risk profiles for over 65,000 listed and non-listed companies, 17,000 projects, as well as for every sector and country in the world.

Headquartered in Zurich, Switzerland, RepRisk serves clients worldwide including global banks, insurance providers, investment managers, and corporates, helping them to manage ESG and reputational risks in day-to-day business.

RepRisk provides the transparency needed to enable better, more informed decisions.
