

Regional Manager for Serneke Construction in Stockholm/Mälardalen

Serneke Construction is continuing its expansion in Stockholm and the Mälardalen area and has recruited a new manager for the region. In September, Fredrik Elmgren will enter the role of Regional Manager for Serneke Construction.

Prior to this, Fredrik was business manager at NCC Sweden, Housing Stockholm, where he worked for the last five years. He has nearly 30 years of experience in construction from both large and smaller companies, including Skanska and Sundvalls Bygg and has worked as both a contractor and purchaser.

“Today, we are an established player with major construction projects in Mälardalen and Stockholm. But as we see further potential for growth in the region, we require a competent and motivated regional manager. When I met Fredrik, I immediately felt that he is a person who is perfectly suited to us,” says Daniel Åstenius, President, Serneke Construction.

As Regional Manager for Serneke Construction Region East, Fredrik will have overall responsibility for all the Company’s ongoing construction projects and operations in the region. A major focus will be on expanding into more strategically selected areas, building out the organization and expanding Serneke’s customer base. Fredrik will also be a part of Serneke Construction’s central management team.

“This is going to be very exciting. I look forward to becoming part of Serneke’s growing team. The Company has had a fantastic development. Serneke’s core values of commitment, straightforwardness, honesty and being solution-oriented match my own. I look forward to contributing to continued growth and profitability together with the organization,” says Fredrik Elmgren.

Fredrik Elmgren will enter his new role on September 20, 2017.

Serneke Construction Region East comprises about 20 ongoing major projects in the Stockholm region, Uppsala and Eskilstuna. Västerås, Linköping, Norrköping and Örebro are examples of other areas in the region where Serneke has an ambition to establish itself.

Serneke is a rapidly growing corporate group active in construction, civil engineering, project development and property management. The Group was founded in 2002 and today has income of nearly SEK 4 billion and some 890 employees. Through novel thinking, the Company drives development and creates more effective and more innovative solutions for responsible construction. The Company builds and develops housing, commercial buildings, industrial facilities, public buildings, roads and civil engineering projects, and other infrastructure. The Company's customers are public and commercial clients, and operations are focused on the three metropolitan regions in Sweden, Gothenburg (Region West), Stockholm (Region East) and Malmö (Region South). Serneke's headquarters are located in Gothenburg and the Company also has offices in Stockholm, Malmö, Helsingborg, Borås, Halmstad, Strömstad, Trollhättan, Varberg and Alingsås. The Company's Series B shares (SRNKE) have been listed on the Nasdaq Stockholm exchange since November 2016.
