

Brighter strengthens its financing with 672 TSEK through exercise of warrants.

The first exercise period for Brighter's warrants of series TO4 is now completed. The company thereby strengthens its financing with 672 TSEK, representing 111,770 new shares.

- Unfortunately, the reminder with the subscription note was sent late to the shareholders this subscription period, says Truls Sjöstedt, Brighter's CEO and founder. This combined with the fact that a few of the larger institutes involved did not send the notice of the offer as planned, resulted in a very low subscription rate. We are in communication with these institutes working to achieve better results in the future. The next period is the TO3 series subscription period that runs from 11th of April to 25th of April. We will also send out more information on that by mail to all holders.

The next period for subscribing shares using TO4s is 25th of August to 8th of September 2018.

Those who subscribed in this exercise period have now obtained Interim Shares. Once the registration has been completed with the Swedish Companies Registration Office, conversion of the interim shares will automatically take place without further notice to the holders. The conversion is expected to occur within approximately one week from the completed registration. The interim shares will not be listed for trading.

Through this warrant exercise the number of shares and votes in Brighter will increase by 111,770 shares to a total of 66,160,000.

About Brighter AB

Brighter develops solutions for data-driven and mobile health services. Through its intellectual property and its first launch Actiste®, the company creates a more efficient care chain with focus on the individual. The goal is to simplify, streamline and enhance the information flow of relevant and reliable data between the patient and health care professionals. Brighter is initially focused on diabetes care, but there are opportunities in the future to operate on a broader level, spanning more diseases and treatment approaches. This is done through The Benefit Loop®, Brighter's cloud-based service that continuously collects, analyzes and shares data on the user's terms.

The Company's shares are listed on [NASDAQOMX First North/BRIG](#).
