

Episurf Medical obtains further granted patent in Australia

The Australian patent office IP Australia has announced that Episurf Medical has obtained another granted patent in Australia. The patent Implant specific drill bit comprises one of the tools in Episurf Medical's kit with surgical instruments used for implantation of the patient-specific joint implant Episealer®.

"We now see how our long-term and intensive work in the patent field gives us a stronger intellectual property protection globally. We are building for the future." comments Pål Ryfors, acting CEO of Episurf Medical.

About Episurf Medical

Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and personalized treatment alternatives. Episurf Medical's Episealer® personalized implants and Epiguide® surgical drill guides are developed for treating localized cartilage injury in joints. Episurf Medical's µFidelity® system enables implants to be cost-efficiently tailored to each individual's unique injury for the optimal fit and minimal intervention. Episurf Medical's head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company's website: www.episurf.com.

This information is information that Episurf Medical AB is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact person set out above, at 10.40 CET on 6 April 2017.
