

New patent in Australia for Episurf Medical

The Australian patent office IP Australia has issued a Notice of allowance for another patent for Episurf Medical (NASDAQ: EPIS B) in Australia. The patent, entitled "*Method and node for manufacturing a surgical kit for cartilage repair*", covers the medical image segmentation process used for joint damage visualisation as well as for manufacturing of Episurf Medical's patient-specific joint implants and surgical instruments.

"Image segmentation is an important technology area for Episurf Medical, and each new patent grant we obtain in this field is very welcome" comments Pål Ryfors, CEO, Episurf Medical.
