

New European patent approval for Episurf Medical

The European patent office EPO has announced its intention to grant another European patent for Episurf Medical (NASDAQ: EPIS B). The patent, entitled "*Method and node for manufacturing a surgical kit for cartilage repair*", covers the medical image segmentation process used for joint damage visualisation as well as for manufacturing of Episurf Medical's patient-specific joint implants and surgical instruments.

"A comprehensive patent portfolio supporting various aspects of our technology has for a long time been a prioritised area, and this patent forms an important part thereof. This grant follows previous approvals for this patent family in China and Australia", comments Pål Ryfors, CEO, Episurf Medical.
