

New Australian patent approval for Episurf Medical

The Australian patent office IP Australia has announced that Episurf Medical (NASDAQ: EPIS B) has obtained another granted patent in Australia.

The patent, entitled “*Surgical kit for cartilage repair comprising implant and a set of tools*”, has a focus on the company’s individualised Episealer® Femoral Twin implant and its design.

“The Episealer® twin technology is an appreciated solution for the commonly occurring elongated cartilage lesions, and we thus welcome this first approval of this patent family”, comments Pål Ryfors, CEO, Episurf Medical.

About Episurf Medical

Episurf Medical is endeavoring to bring people with painful joint injuries a more active, healthier life through the availability of minimally invasive and personalised treatment alternatives. Episurf Medical’s Episealer® personalised implants and Epiguide® surgical drill guides are developed for treating localized cartilage injury in joints. Episurf Medical’s µFidelity® system enables implants to be cost-efficiently tailored to each individual’s unique injury for the optimal fit and minimal intervention. Episurf Medical’s head office is in Stockholm, Sweden. Its share (EPIS B) is listed on Nasdaq Stockholm. For more information, go to the company’s website: www.episurf.com.
