

PRESS RELEASE

Date: 7th March 2013

Ref: GPTPR07032013

GPT wins total waste management contract for a leading European Generics Manufacturer

For free and immediate distribution

GPT Waste, the largest UK independent provider of waste management solutions and sustainable waste services has won a three year, [total waste management](#) contract with one of Europe's leading generics manufacturers

GPT - The Waste Solution has been employed directly by the client who manufactures and distributes prescription medicines throughout the UK.

They will work with the [pharmaceutical manufacturer](#) to provide total waste management services across two sites in the UK, one of which is warehouse and distribution, the second is a large office building with on-site catering.

The three year contract will see waste streams including recyclate, hazardous, confidential and pharmaceutical be completely managed by leading waste management company GPT – The Waste Solution.

The GPT Waste Solution includes collection, disposal and recycling of all types of industrial, factory, production, environmental and packaging waste with real time monitoring and reporting through GPT's management reporting system.

Mike Callaghan of GPT - The Waste Solution said:

“At GPT, we have an extensive network of service providers enabling us to provide waste total waste management solutions across all sectors including pharmaceutical manufacturing. We are confident that our range of services will allow us to provide this client with improved operational efficiency and significant financial savings and we will strive as ever, to provide a service of excellence”.

Mike Callaghan is the Business Development Manager from GPT Waste Management www.gptwaste.com

GPT Waste provides total waste management services designed to enable clients to achieve cost reduction by improving efficiency whilst removing risk. They work with local and national companies across the public and private sector to improve employee and customer safety, ensure legislative compliance and minimise the environmental impact of waste disposal. In addition to their waste management services, The Waste Solution offers a [complete waste review service](#) to audit the waste management processes of entire estates.
