

PRESS RELEASE

DATE: 15 April 2013
REF: DRUPR15042013

Energy management one-to-one support for SMEs

For free and immediate distribution

Energy management business support service [Drumbeat Energy Management](#) is offering UK SMEs expert energy management support in the form of a 15 minute one-to-one telephone consultation with one of their experienced Energy Managers.

The service is aimed at individuals within businesses that are struggling with rising energy costs and under pressure to get a grip on energy management. Drumbeat will arrange a 15 minute one-to-one call, to listen and discuss [energy management issues](#) and problems, one-to-one and to make preliminary observations and recommendations for consideration.

Graham Mills, Drumbeat Energy Management Managing Director said:

“After the initial one-to-one, if they want to talk more to us, we’ll go and have a face to face exploratory meeting at no cost to the client. Often the person responsible for energy management has issues and questions and can learn from the experiences of our expert Energy Managers.”

Go [one-to-one with Drumbeat Energy](#)– by calling 020 7078 4103 to arrange a call.

By taking an advisory approach to [Energy Management](#) Drumbeat aims to transform the way that businesses and other organisations manage their energy consumption. The company offers an energy management business support service which enables SMEs to become thoroughly proficient and self-sufficient in energy management in the shortest practical time.

The Drumbeat approach takes organisations through a simple 3 stage process on an energy management journey:

Drumbeat Energy Management Stage 1 - [Primary Energy Assessment](#)

Drumbeat Energy Management Stage 2 - [The Energy Management System](#)

Drumbeat Energy Management Stage 3 - [Achieving in-house Proficiency](#)

Notes to Editors:

About Drumbeat Energy

Drumbeat Energy helps organisations to become proficient and self-sufficient in the art of energy management. Drumbeat’s Energy Managers will work with your team to install a best-practice energy management system and provide energy management training. Drumbeat’s integrated energy management support is a stronger, lower risk solution than diverting your own untrained resources. Drumbeat follows a route map of three key stages of your energy management journey, transforming your organisation from one with the ambitions to manage energy, to one which is proficient and self-sufficient in-house. Drumbeat is all about excellence in energy management. We provide sensible, practical energy management support and solutions.
