Structural warranty provider Build-Zone strengthens team with new appointment

For free and immediate distribution

Structural Warranty Provider Build-Zone strengthens the team by appointing Grant Sykes.

Grant Sykes is the newest member to join the Build-zone team. Graduating from Loughborough University in 2009; Grant went on to gain experience in logistics and financial operations before joining the Build-Zone team.

After a five week introduction and training in the Self-Build Zone team; Grant's role within the Build-Zone team is varied and involves him dealing with direct clients, private individuals and developers. His involvement takes him from warranty enquiries through to issuing final certificates of insurance.

Grant is currently studying for the CII Certification and plans to continue with additional qualifications to further enhance his knowledge and understanding of the industry.

Grant can be contacted on grant.sykes@build-zone.com or on **0845 230 9873**

Grant Sykes, Build-Zone team member, comments on his new role:

"The training provided has opened my eyes to a number of construction methods and techniques, along with building regulations, and as a result I cannot look at a building in the same way again!

"The role is varied and allows me to deal with sales, rating of premiums, quotes, claims, administration and customer service."

Simon Middleton, Build-Zone Director said:

"We extend a warm welcome to Grant. By recruiting and developing the Build-Zone team, we are confident that we can continue to deliver a first class efficient service for all of our clients and insurers".

The competitive range of structural warranties on offer from [Structural Warranty product provider](#) Build-Zone provide cover for all areas of house building, social housing and commercial development as well as completed and self-build developments. The Build-Zone New Home Structural Warranty is an

approved Designated Warranty Provider for the purposes of the Warranty Link Rule and operates throughout the UK.
