About MIPS

MIPS is specialized in helmet-based security and protection of the brain and is the world leader in this field. Based on an ingredient brand model, MIPS Brain Protection System (BPS) is sold to the global helmet industry. The solution, which is patented in all relevant markets, is based on some 20 years of research and development together with the Royal Institute of Technology and Karolinska Institutet in Stockholm, Sweden.

The Company's headquarter with 26 employees in research and development, sales and administration is in Stockholm, where its test facility is also located. Production takes place at sub-contractor facilities. The MIPS share is listed on Nasdaq Stockholm. For more information, visit www.mipscorp.com
