## **NEGOTIATIONS WITH TRAXYS CONTINUES**

Traxys has now substantially received all the required reports from its consultants about the Sotkamo Silver's mine construction (the "Project"), and has reached the final stages of its due diligence. In order to complete its review, it has requested final updates and additional information about: (i) the technology Sotkamo shall employ for the processing of the ore into concentrates as well as (ii) the management team that remains to be assembled and which would be responsible for the construction of the Project and for the day to day operation of the mine.

Traxys remains interested in the Project, and once the final information requested has been received and reviewed, its Board will decide on its possible participation in the funding of the Project, materially in line with the previously agreed terms detailed in the Non Binding Term Sheet signed on 23rd January 2017.
