
ERICSSON AND CHINA MOBILE DEMONSTRATE TD-LTE RADIO DOT SYSTEM AT MWC 2015

- Ericsson and China Mobile join hands in demonstrating TD-LTE Radio Dot System at MWC 2015 to drive the commercialization of TD-LTE small cell products
- Ericsson Radio Dot System for TD-LTE ready to support operators to boost indoor performance with data and voice services

Ericsson (NASDAQ:ERIC) and China Mobile jointly demonstrate the Ericsson Radio Dot System for TD-LTE during Mobile World Congress (MWC) 2015 in Barcelona, aiming to together drive commercial uptake of TD-LTE small cell products.

Indoor coverage has always been one of the bottlenecks for operators to meet the consumer needs of connectivity anytime, anywhere. Most of the current indoor solutions, built mainly for voice coverage, can no longer support the ongoing dramatic increase in data traffic.

China Mobile is building the world's largest TD-LTE network - delivering high-speed 4G and excellent app coverage. As the leading TD-LTE operator in the world, China Mobile has focused on network capacity and performance improvement indoors – meeting consumer demand of a consistent user experience irrespective of location.

The TD-LTE Radio Dot System demonstrated in the booth of China Mobile on site at MWC, is an innovative small cell solution by Ericsson. The visible component – the Radio Dot - is the most compact radio product, weighing only 300 grams, and offers flexible mounting. With its small size, large scalability, and compelling evolution path, this product caters to a broad range of requirements to deliver high-quality mobile broadband and voice services for indoor environments.

Jan Signell, Head of Region North East Asia, Ericsson says: "Ericsson Radio Dot System is easy to deploy and 100 percent integrated with current mobile networks. We look forward to deploying this innovative solution in buildings and offices in China, helping China Mobile overcome the various indoor coverage challenges and provide the best-in-class user experience for consumers."

Ericsson at Mobile World Congress 2015

During Mobile World Congress 2015 in Barcelona, Spain, Ericsson is showing world-leading technology, service capabilities, and innovations. The Networked Society is transforming

entire industries. ICT tools have become fundamental everyday resources for businesses, people and society. We lead the way with hardware, services and software solutions that drive development in mobility, broadband and cloud, creating the foundation for new eco-systems, and transformation across industries. The change that transformation brings is in the hands of everyone. That is why we at Mobile World Congress this year will talk about how we enable change-makers in the Networked Society to advance digital experiences.

You can find us at MWC in Hall 2, Stand 2N60. Follow us during the event using @Ericsson and join the discussion using #MWC15. Insights from our experts and Networked Society evangelists are also published on our blog during the event.

Ericsson is the driving force behind the Networked Society – a world leader in communications technology and services. Our long-term relationships with every major telecom operator in the world allow people, business and society to fulfill their potential and create a more sustainable future.

Our services, software and infrastructure – especially in mobility, broadband and the cloud – are enabling the telecom industry and other sectors to do better business, increase efficiency, improve the user experience and capture new opportunities.

With approximately 115,000 professionals and customers in 180 countries, we combine global scale with technology and services leadership. We support networks that connect more than 2.5 billion subscribers. Forty percent of the world's mobile traffic is carried over Ericsson networks. And our investments in research and development ensure that our solutions – and our customers – stay in front.

Founded in 1876, Ericsson has its headquarters in Stockholm, Sweden. Net sales in 2014 were SEK 228.0 billion (USD 33.1 billion). Ericsson is listed on NASDAQ OMX stock exchange in Stockholm and the NASDAQ in New York.
