

InCoax enters Partner Agreement with INFRA-COM SWISS, a leading Swiss system integrator

InCoax has entered into a Partner Agreement with INFRA-COM SWISS, a leading Swiss system integrator, that wants to deploy InCoax's new product generation In:xtnd™ that is based on MoCA Access™ 2.5.

InCoax has previously reported on progress in the Swiss market which has approximately 2,3 million apartments and 1,2 million active subscriptions over coax.

"Apart from working directly with cable operator customers, we have now entered into a partnership with the leading system integrator in Switzerland, INFRA-COM SWISS. They have a well-developed reach among Cable Operators as well as the Hospitality market.", says Peter Carlsson, CEO of InCoax.

INFRA-COM SWISS (<https://www.infra-com.ch>) is a complete technical service provider and system integrator with 30 years of operator market experience. Their high performing offering includes all services such as planning, realization and operation of modern broadband networks at all levels.

"We are very happy to have entered into a partnership with INFRA-COM SWISS, the leading system integrator in Switzerland. This is an important step for our strategy for Switzerland. We look forward to start training their team on our In:xtnd™ solution early September", says Peter Carlsson, CEO of InCoax.
