

Press release 31 October 2017 (8:30 CET)

Two Instalco companies to carry out installations in new police station in Rinkeby

The Instalco subsidiaries Rörgruppen and Ohmegi Elektro have been entrusted to participate in the construction of a new police station in Rinkeby in northern Stockholm. Rörgruppen's heating and plumbing installations and Ohmegis electrical work are carried out under a subcontract for NCC, with Familjebostäder as customer. The total order value for Rörgruppen and Ohmegi amounts to approximately SEK 55 million.

The assignment comprises the rebuilding of an existing residential property and an extension with a total area of approximately 14,500 square meters. The property will to a large extent be reconstructed internally and externally, and the layout will be changed from apartments to offices. The work will be initiated during the autumn of 2017.

"The new police station in Rinkeby has been eagerly awaited and we are happy to have been given the opportunity to participate with our installation works", says Thomas Ericson, CEO of Ohmegi Elektro, part of Instalco.

"Rörgruppen and Ohmegi have solid experience from working together in projects with our respective expertise within electricity and heating and plumbing. We are looking forward to be part of this important project", says Göran Johnsson, CEO of Rörgruppen, part of Instalco.
