SPECIALIST INDUSTRIAL SIGNAGE GUIDE LAUNCHED

LET THE GRAPHICS DO THE TALKING

FASTSIGNS®, one of the UK'S leading graphic design and sign specialists has launched a brand new product catalogue for manufacturing and industrial customers.

Technology in the sign industry has changed beyond all recognition and many companies are unaware of the new types of signage available to meet the demands of twenty-first century businesses. Signage has to do so much more nowadays than just display the company name and in the case of industrial premises, specific signs have to be displayed to meet health and safety legislation.

Packed full of information on the hundreds of products on offer and services available, from site surveys to vehicle graphics, the catalogue is specifically designed to help those in industry choose the most effective signage for their business.

With decades of experience to its name, FASTSIGNS® is offering companies a free, no obligation consultation to provide advice on all aspects of signage to ensure that not only does the business portray the right image but that all signs clearly direct and informs employees, customers and visitors alike, promoting professionalism, safety and quality.

FASTSIGNS® prides itself on the fact that customers can expect an unrivalled offering which includes the promise to manage any project from the concept stage right through to completion. Excellent service, customer consultation and project management every step of the process combines to make an unbeatable package.

Garth Allison, managing director of FASTSIGNS® in the UK, said: "In today's competitive environment it is absolutely vital that any business, no matter how big or small, gets their message out there to prospective customers."

He added: "Our UK-wide network of professionals offer an unbeatable combination of the latest technology, innovative thinking and creative design ideas. The new catalogue is designed to show the diverse range of products and services we can provide."

To order a copy of the FASTSIGNS® catalogue or arrange a free no obligation consultation call 01246 456512 or email sales.uk@fastsigns.co.uk.

Products use wide-format digital printing along with state-of-the-art technology for Macs® or PC graphic files. Signs can be printed in virtually any size and on any surface including vinyl, wood, windows, walls and vehicles.

FASTSIGNS® centres use the latest technology to create effective and eye-catching signs and graphics while ensuring that the design and ordering process is as fast and convenient as possible.

For further information on FASTSIGNS® and its products visit www.fastsigns.co.uk.
