

Press release LightLab Sweden AB (publ) 2017-05-29

LightLab receives test series order from leading specialty light sources provider

- **Lightlab has received a test series order for UV Boost™**
- **The order will be delivered during the current quarter**
- **Important step in the establishment of UV Boost™ on the market**

LightLab has received an order from a leading global provider of specialty light sources regarding a test series for evaluating UV Boost™ in one of their applications. The order will be delivered during the current quarter and is worth approximately SEK 40k. The order follows an initial evaluation and analysis of UV Boost™ performed earlier and LightLab sees it as an important step in the collaboration between the parties and for the establishment of UV Boost™ on the market.

"We see the order as an important step in establishing our UV Boost™ optical coating technology on the market, and hopefully it will be followed by more and larger orders from both this and other customers.", says Johan Tingsborg, CEO LightLab.
