For Immediate Release**DIGNITANA REVISES 2017 PROJECTIONS FOLLOWING PRODUCTION DELAYS**

Lund, Sweden—September 29, 2017—[Dignitana](#) AB, a world leader in medical scalp cooling technology and manufacturer of the DigniCap® Scalp Cooling System, today announces a decrease in 2017 sales projections citing production delays.

The relocation of a major manufacturer of the DigniCap® system resulted in a production halt for two months. This in turn has led to a reduction of product availability, and thus, Dignitana has not been able to deliver orders at a planned amount. The move has now been completed and production has returned to normal capacity.

The production halt will affect sales in Q3 and Q4 with approximately SEK 4 million. Dignitana will make efforts to deliver systems at a higher rate during Q4 and in Q1 of 2018, thus being able to recover parts of the temporarily lost sales.

About Dignitana AB (publ)

Dignitana is a Swedish public company based in Lund and manufacturer of the medical cooling device DigniCap®.
