Kongsberg Automotive and Cybercom in framework agreement for continued development of Global Tech Centers

Cybercom and Kongsberg Automotive have signed a framework agreement for electronics and software development. The agreement covers delivery to Kongsberg's development sites worldwide, and includes consultants on site, project deliveries and offshore supply. The agreement runs for 2 years.

Kongsberg Automotive manufactures world-class products for the global automotive industry. Its products enhance the driving experience, making it safer, more comfortable and more sustainable.

"Our cooperation extends several years back in time, and we see this new framework agreement as a confirmation that our deliveries have been of the highest quality," says Peter Schön, Business Development Manager, Cybercom.

"Cybercom has a strong position in automotive, including our Wireless Labs and blueGo service, which contribute to successful infotainment solutions and intelligent cars from leading carmakers worldwide. The automotive segment is evolving towards more sustainable solutions through new technology. We want to contribute to this journey," says Patrik Lägermo, Director of Cybercom in Jönköping.

About Cybercom

Cybercom is an IT consultant that assists leading companies and organisations to benefit from the opportunities of the connected world. Each individual employee is a win for us. It is our employees who drive forward Cybercom's development. Our consultants, and the solutions we create, take us all the way from public sector e-services in Sundsvall, Stockholm and Helsinki to operators and mobility in the Caribbean islands, via the UN Global Compact, driverless cars, national electronic identification, connected sewing machines and elevators. The company's areas of expertise span the entire ecosystem of communications services and security. Cybercom's domestic market is the Nordic region, and in addition the company offers global delivery capacity for local and international business. Cybercom was founded in 1995.
