

Lease Advisors Community Program Reveals Military Donation Figures for Fourth Quarter 2015

Los Angeles-based telecom lease acquisition firm, Lease Advisors made a milestone announcement today regarding its Community Program. The firm has donated approximately 30,000 free prepaid calling card minutes to active and veteran military personnel during Q4 of 2015. Through outreach to military bases and VA hospitals, the program provides free, prepaid calling cards to active-duty military, veterans, and their families across the nation.

Last August, Lease Advisors pledged to donate more than 300,000 minutes of talk time to military personnel with familial ties to the communities where they complete lease purchase transactions. Each donation, made in partnership with the land owner(s) whose leases are acquired, enables deployed servicemen and women, local veterans, and military families to remain connected with loved ones via free, prepaid calling card minutes.

"We are proud to be able to support those in need within the communities where we conduct business. It is an honor and privilege to be able to help those who protect and serve, so that we may enjoy the freedoms we hold so dear. Our partnership with [Cell Phones For Soldiers](#) is just one of the many ways Lease Advisors helps keep military families connected, when it is needed the most," says, Shannon Diem, Senior Vice President of Marketing for Lease Advisors.

Cell Phones For Soldiers was founded by Robbie and Brittany Bergquist of Norwell, Massachusetts, to serve troops and veterans with free communication services and emergency funding. To offset the often insurmountable cost of calling home, Lease Advisors will contribute prepaid calling cards or cash donations to further the organization's mission. By partnering with clients to make these donations benefiting those in or from their own communities, Lease Advisors is working to fulfill the firm's commitment to social responsibility and its corporate philosophy of giving back to individuals and communities in need.
