Item 16 – The Board of Directors proposal for resolution regarding Guidelines for remuneration of the Senior Management

The Board of Directors proposes that the Annual General Meeting resolves on the following guidelines for remuneration of the Senior Management. Senior Management refer to the CEO and the other members of Group Management (the "Management"), as well as members of the Board of Directors, to the extent they receive compensation outside the board assignment. Endomines will apply market-based remuneration levels and terms of employment to recruit and maintain a management with high competence and capacity to achieve set goals, designed to promote the company's long-term value creation. The remuneration shall motivate the Management to do its utmost to ensure the shareholders' interests. Remuneration to the Management shall consist of fixed salary, variable remuneration, any performance and share-related incentive programs and other benefits and pensions. The total remuneration shall be market-based and competitive and based on competence, responsibility and performance. The variable remuneration shall be designed with the purpose of promoting the company's long-term value creation and be based on outcomes in relation to clearly defined goals as well as being maximized in relation to the fixed salary determined. The variable remuneration shall not exceed 40 per cent of the fixed salary for the CEO and for the other members of the Management not exceed 30 per cent of the fixed salary.

In case of termination of employment contracts by the company, the notice period shall not exceed twelve months. Severance pay and fixed salary for a member of the Management should in general not exceed an

amount corresponding to the fixed salary for twelve months upon termination by the company. Pension benefits shall be determined by fees. Share-related incentive programs within the company shall ensure long-term commitment to the company's development, an increased community of interests partnership between the program participant and the company's shareholders and shall be implemented on market terms.

Members of the Board of Directors elected by the Annual General Meeting may in special cases receive remuneration for services within their respective areas of competence, which do not constitute board work. For these services a market-based remuneration must be paid, which the Board of Directors must approve.

The Board of Directors may waive these guidelines only if there are special reasons for this in a specific case and the reason for the deviation is reported at the next Annual General Meeting. In accordance with the Swedish Corporate Governance Code, the Board of Directors' Remuneration Committee follows and evaluates the implementation of the Annual General Meeting Guidelines for remuneration to Senior Management. The company's auditor has, in accordance with Chapter 8, Section 54 of the Swedish Companies Act issued an opinion as to whether the guidelines for remuneration to Senior Management resolved upon on the Annual General Meeting 2017 were adhered to. The evaluation and auditor's review has resulted in the conclusion that Endomines has followed the guidelines for remuneration resolved by the Annual General Meeting 2017.

Item 17 – The Board of Directors proposal for resolutions of authorisation for the Board of Directors to resolve on issue of new shares, warrants and convertible bonds

The Board of Directors proposes that the Annual General Meeting authorises the Board of Directors, on one or more occasions during the period until the next Annual General Meeting, with or without deviation from the shareholders' preferential rights, against cash payment, for payment in kind or by way of set-off, resolve to issue new shares, warrants and/or convertible bonds. Issuance pursuant to such authorisation may not result in the company's share capital exceeding the maximum allowed share capital in accordance with the company's Articles of Association at any given time. In respect of shares, the basis for the subscription price shall be the market value of the shares with any customary discount. The reasons for deviation from the shareholders' preferential rights are to enable directed issues primarily to enable structural transactions, to broaden long-term ownership in Endomines, and to use the opportunity to acquire capital for additional investments on favourable terms to further develop prospecting efforts, thereby promoting Endomines' ability to create additional value for all shareholders.
