Capture the summer breeze

Can you capture that laidback feeling of summer even when you're dealing with high season? Duni's Summer Collection ensures that staff have that little extra time for making your customers feel truly welcome. Our time-saving table settings include napkin pockets for fast table set up, silicone candleholders and placemats perfect for outdoor settings and a colour range that brings sunshine to the tables.

New functional design

Since the success of our unbreakable silicone Moody tealight holder in 2011, Duni is now introducing a new, more complete line of silicone products for the table top. One such product is the Silicone Placemats. It is washable, re-usable and can be used outside as it doesn't fly away due to the anti-skid property. The range of silicone candleholders has also been extended and two of them awarded with the design prize "Red dot award".

Another smart way to save time for your staff without compromising on quality is to use Duni Duetto® placemats and Duni Sacchetto prefolded napkins. Also these are perfect for designing your outdoor restaurant since the napkin won't fly away!

Beautiful summer

Capture the summer breeze and warm weather atmosphere without compromising on design with Duni's new Rio-range or beautifully Sensia Kiwi.

Duni napkins and table covers are FSC certified.

The wedding season has started

When it comes to weddings, every little detail has to be beyond perfect for your guests. Using our premium-quality, practical napkins, candles, and tablecoverings, you can be sure it will be – whether the happy couple want their big day to be traditional or a little more conventional.

Like linen, but smarter. Elegance® Lily 48 cm napkins capture the lovely look and feel of linen, but are much easier to work with, allowing you to cut costs and increase flexibility.

Don't forget to check out and get inspired on our homepage Duni.com.
