Melker Andersson new member of Duni Advisory Board

Duni's Advisory Board contributes with inspiration to new concepts and products for the restaurants of the future. The advisory board is now strengthened with yet another well established and successful profile, Melker Andersson. He has been selected for his great knowledge and experience as prominent entrepreneur and restaurateur.

Duni is Europe's leading supplier of premium table top concepts and packaging solutions for take-away. As part of being in the forefront when it comes to inspiration, innovation, quality, trends and design, Duni has appointed an advisory board. In the board you find chefs, caterers and restaurateurs with business both in Sweden and abroad.

- I'm looking forward to be part of Duni's Advisory Board. It consists of competent and innovative profiles within the business. This makes it a very attractive forum for exchange of experiences and at the same time to get an up to date trend report from the entire Europe, says Melker Andersson.

Melker Andersson is, together with his partner Danyel Couet, running the restaurant group Grupp F12 with well known restaurants like Fredsgatan 12, Grill, Smak, Kungsholmen and Le Rouge. Melker has also written a number of cookbooks and is a well known profile from different cooking shows on TV. He has been honoured for his cooking and entrepreneurship with for example the Tore Wretman Gold medal, Hall of fame (2009), Chef of the chefs (1995, 2005, 2006) and a silver medal in Bocuse d'Or (World championship for chefs 1995). He is now starting yet another exciting project – the restaurant chain Vigårda Barbeque.

- We are very proud and happy having Melker as new member of our Advisory Board. His long experience and successful concepts will give Duni very valuable knowledge when it comes to product development and designs for the restaurants of the future. With the new restaurant chain Vigårda this knowledge will also be beneficial for the growing take-away market where Duni today is developing strong concepts, says Fredrik von Oelreich, President and CEO, Duni.
