Changes in the management team at Duni

Thomas Lööb, Corporate Development Director and Chairman of the Board at Rexcell Tissue & Airlaid AB, will as from today, join the Management team of Duni AB. Rexcell Tissue & Airlaid AB is a wholly owned subsidiary of Duni AB, manufacturing tissue and airlaid material for Duni and external customers.

Duni's CEO Thomas Gustafsson comments:

“Rexcell is an important part of Duni's business offering and to the company's leading market position. Rexcell will also in the future play an important role in contributing to our plan of increased efficiency. We are concentrating the Rexcell production to one site and also announced that we decided for a major tissue capacity investment. Thomas Lööb is working actively with these activities and investments and will be a valuable member of the Duni Management team.”

Leen Amersfoort, will take on a new position as Commercial Development Director in Business Area Table Top. Leen will be reporting to Business Area Director Table Top, Maria Wahlgren and be responsible for the management of South-East Europe and special projects. Leen Amersfoort has a solid commercial background that will be essential for the Table Top growth plan. Consequently, Leen Amersfoort will leave the Duni management team as from January 1st 2016.
