

## **Akelius Residential Property AB (publ)**

### **Akelius acquires 415 apartments in Montreal**

The four properties all have top locations in the central portion of Montreal and are built between 1956-1973. The closeness to the landmarks of Montreal and large employers like Mc Gill University, as well as good access to public transit, are a few of the reasons of the popularity of the locations. The price was CAD 120 million.
