

Revised: Welcome to an Elekta R&D update at University Medical Center Utrecht

STOCKHOLM, January 17, 2015 – Elekta welcomes investors, analysts and media to an update on its investments in R&D, with special attention to the Atlantic project: a magnetic resonance imaging (MRI) guided radiation therapy system.

This event will be held on Thursday, January 22, 2015, from 10:30–13:30 CET at University Medical Center (UMC) Utrecht in the Netherlands. **Note that due to great interest, the presentation will be extended by one hour.**

Niklas Savander, Elekta's President and CEO; Dee Mathieson, Senior Vice President, Elekta Oncology; and Kevin Brown, Elekta's Global Vice President Scientific Research, will talk about Elekta's R&D investments in general as well as the status of the project and the milestones to market introduction of the MRI-guided linear accelerator in particular. They will also show the world's first fully integrated research system, as it nears completion at UMC.

In a separate meeting there will be a possibility to have an informal discussion about the clinical relevance of MRI-guided radiation therapy with the UMC professors Marco van Vulpen, Head of Radiation Oncology, Radiology and Nuclear Medicine Physics; Jan Lagendijk, Head of Radiation Oncology Physics; and Bas Raaymakers, PhD, Professor Experimental Clinical Physics, Department of Radiotherapy.

It will also be possible to listen to Elekta's presentations over the phone and via the web. Please use the following link: <http://elekta-rd.creo.se/>
