NEWS for Immediate Release

Visioneer and Office Gemini Partner to Offer Production Scanners with Advanced Capture Software

New total-package scanning solution will improve productivity of employees and increase customer profitability.

HOUSTON, Texas, September 5, 2013 – [Visioneer](#), a leader in scanner solutions, has partnered with [Office Gemini](#), an innovator in document management and capture software to add their [Diamond Vision software](#) to select production and departmental scanners. The new bundled products (to be announced later this year) will benefit businesses in every industry by helping them improve data capture, automate document workflows, increase productivity and performance, and as a result strengthen profits.

Since opening in 2006, Office Gemini has experienced successful global expansion with the Diamond Vision product line. Offering unlimited scanning and automated data capture, Diamond Vision is a leader in image and data capture and is a top notch solution for streamlining the conversion from paper to searchable electronic files in a manner that saves on time and on the bottom line.

Since 1994, Visioneer has achieved [great success](#) creating scanning solutions that provide functionality, ease of use and return on the customer's investment by combining software, drivers and advanced hardware. The addition of Office Gemini's Diamond Vision software to select [Xerox DocuMate scanners](#)* will create a line of affordable scanning and data capture solutions for paper intensive offices. The new scanners will allow businesses to convert high volumes of paper documents into organized, searchable and exportable data through an efficient, quality controlled assembly-line style workflow process.

Amanda Sundara, COO at Office Gemini states, "The practical and affordable combination of a top notch line of scanners with an efficient and feature rich software solution is a highly sought after goal, yet surprisingly rarely achieved, in the world of paper conversion and production level scanning. The idea of such a powerful high value package is exciting to say the least. This partnership will be the first real out-of-the-box, all inclusive solution for companies looking for a complete hardware/software bundle with the proper stamina and power to provide the high level production and automation they need to convert large volumes of paper."

"It is the perfect answer for scanning service bureaus, scanning departments within large corporations, or companies needing to catch up on a backlog of converting paper files to electronic images," said John Capurso, president and CEO at Visioneer. "Through this partnership we are now able to deliver a more complete solution to manage all mission-critical business documentation with

PRESS RELEASE: Office Gemini and Visioneer Partner

a state-of-the-art reporting tool to help track productivity and profitability within the production scanning process.”

About Visioneer

Visioneer provides a broad range of scanning solutions for the desktop, distributed and departmental document imaging markets as well as the mobile and remote business scanning segments. *In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox® DocuMate® product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch® technology.
