

## **Aesculap, Inc. Launches MINOP® InVent: The Future of Neuroendoscopy**

**Center Valley, PA (April 4, 2013)** – Aesculap, Inc. is pleased to announce the availability of the MINOP *InVent*, which pushes the boundaries of neurosurgical techniques in offering a solution for bimanual resection of solid tumors and cysts.

### **MINOP InVent - Offering *more* for patients through *less* invasive techniques**

- Eliminates the need for additional brain retraction
- Allows for Bimanual resection of large tumors and cysts
- Enhanced ability to perform hemostasis and coagulation
- Specialized instrumentation with up to 32 options available
- Unparalleled HD Optical System featuring a larger image

“As a leader within the neurosurgical community, Aesculap is committed to providing innovative technology for our customers and their patients. *InVent* embodies this philosophy in offering a new solution for Advanced Neurosurgeons and expanding the possibilities for Minimally Invasive Neurosurgery,” said Aesculap, Inc. President, Chuck DiNardo.

### **MINOP Indications**

The MINOP System is intended for use in endoscope-assisted microneurosurgery and pure neuroendoscopy (i.e. ventriculoscopy) for direct visualization, diagnostic and/or therapeutic procedures, such as ventriculostomies, biopsies and removal of cysts, tumors and other obstructions.
