

UROS enhances its Goodspeed Roaming App

- *Offering will significantly expand coverage of low-cost data roaming in 140+ countries*
- *Provides a simple solution for roaming without bill shock*

26th February, 2018 – Barcelona. UROS, a leading innovator in global connectivity, announces the enhanced [Goodspeed Roaming app](#) providing low-cost mobile data globally. [UROS](#) will utilize the AT&T Wi-Fi Hub network to augment Goodspeed Roaming service coverage.

Goodspeed Roaming provides affordable mobile data connectivity for international travelers who appreciate seamless connectivity with transparent pricing and prefer to travel without extra devices. With the addition of AT&T Wi-Fi Hub footprint, Goodspeed Roaming App will guarantee low-cost connectivity in over 140 countries around the world and over 12 million Wi-Fi hotspots around the world.

UROS CEO Jerry Raatikainen said, *"We are excited to work with one of the world's premier operators. This cooperation will benefit Goodspeed Roaming App customers by expanding service coverage and quality, all the while maintaining its simplicity of use and pricing model. This partnership supports UROS' vision of truly global and borderless connectivity."*

The Goodspeed Roaming App is available as an embedded app in selected Android smartphones. Once a customer activates the app, Goodspeed Roaming data service will be available whenever it is needed by the user. When abroad, the app will suggest connecting with Goodspeed Roaming service, while leaving the customer's phone number available for calls and text messages.

The expanded worldwide offering will be available for Goodspeed Roaming users during the second quarter of 2018.
