

Rejlers Energitjänster highly ranked in quality measurement

(REJL B)

Rejlers got a top placement in Svenska kraftnät's latest publication about which operator offering meter reading services within the energy area in Sweden that has the best quality. Out of 112 operators, Rejlers came in second place. With over 1400 series sent over the last month Rejlers averaged merely 1.3 errors.

Rejlers Energitjänster is market leading and the largest independent operator in meter reading services in Sweden. The company represent some 7 per cent of the total Rejler Group turnover. The customers are network companies, electricity trading companies and property companies.
