# Rejlers signs agreement on energy measurement with VÄRMEK

**Rejlers Energitjänster has signed an agreement with VÄRMEK for comprehensive measurement data management. The agreement runs for four years and the order value is MSEK 15. The aim is to give Värmek's member companies access to an affordable and efficient system, as well as services relating to collection and quality assurance of measurement data.**

The agreement includes Rejlers' proprietary 'Collector' AMR system for collection of measurement data, and the TP MDM system for quality assurance, validation, import and export of such data. The agreement can also be called on as a service solution.

Rejlers Energitjänster is a wholly owned subsidiary of Rejlers Sverige AB, which is part of the Rejler Group, with around 1,800 employees in the Nordic region. Rejlers Energitjänster has been supplying systems and services to the Nordic energy market for over 20 years and holds a market share of around 30 per cent of the Swedish energy market.
