

Christine Lind new CEO of Medivir AB effective 1 April 2017

Stockholm, Sweden — Medivir AB (Nasdaq Stockholm: MVIR) announces today that Christine Lind has been appointed as the new CEO of Medivir AB. She succeeds Niklas Prager, who accepted the role as CEO in 2014 from a position as a Director of the Board when the company faced the need of a corporate transformation. Christine Lind will take up her new position on 1 April 2017, until which time she will continue in her existing role as EVP Strategic Business Development. Niklas Prager will continue as CEO until 1 April and will also make himself available to Christine until the Annual General Meeting on 3 May, in order to ensure an optimal and smooth transition.

“I am delighted and proud that we have, in Christine Lind, an internal candidate who can take over the role of CEO, thereby ensuring continuity in the new operational focus and a controlled handover,” says Chairman of the Board, Anna Malm Bernsten. “Christine has been instrumental in our transformation and has extensive and in-depth experience. I am convinced that she, in partnership with the rest of the management team and all of the company’s highly skilled employees, has precisely the qualities needed to maximise the potential of the new Medivir’s broad and extremely exciting pipeline with its focus on oncology,” continues Anna Malm Bernsten. “I would also like to thank Niklas Prager for the far-reaching transformation programme that he has implemented so successfully while simultaneously distributing SEK 1.5 billion to our shareholders.”

“It feels natural to hand over to someone new now that we have completed the comprehensive transformation process that has been my primary task over the past years. Today’s Medivir is a completely new company that is strongly positioned and has fantastic potential for value creation over the next few years. I am also very pleased by the fact that, in Christine, we have secured a strong internal candidate who can take over as CEO,” says Niklas Prager the outgoing CEO.

Christine Lind has been Medivir’s EVP Strategic Business Development since 2015, prior to which she was VP Business Development at LifeCell Corporation in New Jersey, and has spent the majority of her career at Merrill Lynch & Co. / Bank of America Merrill Lynch in New York, where she specialised in Healthcare Investment Banking. Christine, who was born in 1974, is a US citizen and holds a B.Sc. in Finance and Information Systems from New York University and an MBA in Finance and Management from Columbia Business School.

“I am absolutely delighted to take over the role of CEO for Medivir AB. It is an honour to be entrusted to lead the talented Medivir organization. I feel very confident that the strong R&D portfolio and the focus Medivir has will deliver value to our shareholders in the coming years,” says Christine Lind, CEO Designate of Medivir AB.
