QUANTROS

Quantros Names Dmitri Daveynis Senior Vice President of Engineering

Quantros Strengthens Executive Team with Recognized Technology Pioneer in Software Development

MILPITAS, Calif., June 12, 2013 – Quantros®, a leading provider of quality, safety and clinical business intelligence solutions for the healthcare industry, named Dmitri Daveynis as senior vice president of engineering. Reporting directly to Quantros President and CEO, Keith Hagen, Daveynis will advance the evolution of Quantros' cloud-based healthcare solutions. Daveynis will drive innovation through the launch of revolutionary, patent-pending Smart Classification™ technology. Coming soon, this technology will be embedded into a sleek new graphic user interface for the Quantros Safety Event Manager™ product.

"Dmitri's demonstrated experience as a leader and visionary in the development and implementation of state-of-the-art technology and software will be an invaluable asset to Quantros as we continue to enhance our products to enable safer and higher quality healthcare," said Hagen. "We are excited to work together to further empower the healthcare ecosystem with actionable intelligence needed to improve outcomes and reduce risk."

Daveynis brings nearly two decades of software management experience to the company, including an extensive portfolio of online services and e-commerce solutions for consumer and commercial markets. He has lead design, development and worldwide deployment and operations of innovative digital products and services.

"Quantros is fundamentally changing the way healthcare providers enhance quality and patient safety, with cloud-based tools and intuitive data capture and analytics," said Daveynis. "I look forward to joining a world class team that shares my focus on developing cutting-edge technology and delivering an exceptional product to healthcare providers."

Most recently, Daveynis served as the vice president of technology and operations for Hewlett-Packard, overseeing implementation and integration of HP's new marketing technology platforms. Daveynis also managed technology strategy and engineering for hp.com, improving operational efficiency while lowering costs and enabling hp.com transformation to a new brand experience. Daveynis holds a MS in applied mathematics from Belarus University and an MBA from the University of Rochester.

About Quantros (www.quantros.com)
Quantros helps healthcare providers improve quality and patient safety by empowering organizations, at every level, with the actionable intelligence they need to improve outcomes and reduce risk. Quantros provides cloud based tools and resources for the healthcare industry in the areas of safety and risk management, quality and performance improvement, accreditation and compliance, and centralized decision support. Today more than 2,000 healthcare facilities use Quantros solutions to capture meaningful data to effectively drive the decisions that improve the safety and quality of care.
