Precise Biometrics Releases Tactivo™ Solutions Ecosystem

The market-leading authentication solutions provider develops global ecosystem of mobility applications integrated with its line of Tactivo Smart Card and Fingerprint Readers to deliver multi-factor mobile device authentication solutions

Precise Biometrics, a market-leading authentication solutions provider and innovative developer of Tactivo™, announced today a global ecosystem of mobility applications integrated with its line of Tactivo readers.

The Tactivo product line of Smart Card and Fingerprint Readers authenticates the user of an iOS or Android device through a fingerprint swipe or a smart card credential, including CAC, PIV, PIV-I and TWIC; and a mobility application. This process establishes **a** secure environment to streamline business processes, share information, and increase productivity and collaboration while working in a mobile environment.

This ecosystem includes a variety of partner solutions that support strong authentication to provide:

- Secure email access, signing and encryption
- Secure Verification of content from government issued smart cards
- Secure deployment of apps company-wide
- Secure workflow applications
- Application and network security.

"Our goal is to continue to grow this ecosystem as broadly as possible so that our customers have many options and will recognize a return on investment for their mobility initiatives utilizing Tactivo," said Jeff Scott, Vice-President of Sales for North and South America.

The mobility initiatives around BYOD and securing mobile environments continues to force government and enterprise organizations to meet guidelines and implement solutions providing employees safe and secure options to work in a mobile environment. The full Tactivo product line is now GSA APL approved and made in the U.S.A. The line offers a variety of options at an affordable price point http://www.precisebiometrics.com/mobile-device-security

Developers interested in building secure applications for Tactivo can request a free iOS or Android mobile toolkit by email to: partners@precisebiometrics.com
