

## PA Resources' Production Report for February, 2013

### Average production of oil per day\*

<i>(barrels per day)</i>	Year to date, 2013	February, 2013
West Africa	4,900	4,700
North Africa	2,000	2,000
<b>Group Total</b>	<b>6,900</b>	<b>6,700</b>

\* Production based on Working Interest, which is PA Resources' share of the total gross production of the oil fields before deduction of royalty and taxes etc. Production figures are preliminary.

- Production rates at Azurite field were lower than expected due to intermittently unstable flowing conditions on a number of wells, which also caused brief unscheduled outages on the multi-phase pump used to lift oil and water to the production vessel.
