D-Link Introduces World's Most Versatile Baby Video Monitor

Transform your Mobile Devices into Versatile Baby Video Monitoring Solution

MISSISSAUGA, ON – Dec. 23, 2014 – D-Link today announced the latest member of the mydlink camera family, the [D-Link® Wi-Fi Baby Camera \(DCS-825L\)](#). The D-Link Wi-Fi Baby Camera is the most versatile baby video monitoring solution available on the market today, providing at-home and remote video monitoring using an iOS or Android device and the free mydlink™ Baby Mobile app. Moms and dads can now keep an eye on their new little bundle of joys from just about anywhere with a Wi-Fi, 3G or 4G connection. The Wi-Fi Baby Camera features HD video, integrated motion, sound, and temperature sensing technology that can trigger instant push alerts, night-vision technology, integrated lullabies, and video recording. In addition, the Wi-Fi Baby Camera can be used even when there is no Internet connection – connect a mobile device to the Wi-Fi Baby Camera's wireless network for instant local monitoring.

“As Canada’s leader in Home Networking and Network Cameras, we’ve been able to take the years of experience we have and design a solution that will give parents extra peace of mind during nap time or while they’re away from home,” said Lou Reda, President of D-Link Canada. “No other baby monitor offers the flexibility and ease of setup, with a comprehensive set of features for monitoring your little one. With our free mydlink Baby Mobile app and advanced features like two-way audio, motion and sound detection, parents can enjoy the peace of mind of feeling more connected whether they are in the next room or away from home.”

The Wi-Fi Baby Camera offers a full set of easy-to-use features and capabilities for monitoring your baby, including:

- **HD Resolution/Pinch-Zoom**– Provides rich detail and high image quality; pinch and zoom capabilities to see things up close
- **Mobile App Support** – Three easy steps to set up the camera and then enjoy local or remote monitoring of your baby on a mobile devices with the free mydlink Baby Mobile app

- **Night Vision** – Lets you see up to 15 feet in complete darkness so you know what's happening in the nursery without disturbing baby's sleep
- **Temperature Sensor and LED** – Temperature display available on the Baby Mobile app; receive push alerts when temperature levels are outside the set range
- **Instant Push Alerts** – Receive push notifications anytime noise or motion is detected
- **Sound/Motion Detection** – Sound/motion sensor triggers push alerts or recording
- **Lullabies** – Keep your baby happy with five lullabies that can be remotely activated right from your iPhone, iPad or Android device
- **Two-way communication** – Soothe your baby from anywhere with the sound of your voice
- **Micro SD Card Slot** – Automatically records video on microSD card when motion or sound is detected; replay recorded video clips to see what the baby
- **Record Video Clips** – The mydlink Baby Monitor app allows you to take snapshots or video clips and save directly to your mobile device for viewing and sharing
- **Micro USB Power Input** – Ideal for traveling and on-the-go monitoring, the baby camera can be powered by an external battery pack (not included)
- **mydlink Service** – Remotely watch your baby on your mobile device via 3G, Wi-Fi, or 4G LTE when you're at home or on the go
- **Color Coordinated** – Apply pink or blue rings to personalize camera for baby's room
