

# **NDR Energy Group Estimates Record Natural Gas Sales of \$8.6 Million for April 2014.**

Final estimates show substantial increase over gas sales of \$5.9 million in April 2013.

Charlotte, NC., March 31, 2014 – NDR Energy Group, a subsidiary of Universal Bioenergy Inc. (OTCMarkets: UBRG, a publicly traded independent diversified energy company that markets and distributes natural gas, propane, petroleum and coal) announced estimates that show that they have sold over 1.93 billion cubic feet (Bcf) of natural gas to its customers for April 2014. The volume of natural gas sold by NDR Energy is, by far, the highest in the Company's history for the month of April. And, NDR's anticipated gross revenues for April 2014, totaling an estimated \$8.6 million, substantially exceed the sales total for any April period in company history. NDR posted gross sales of \$5.9 million for April of 2013.

NDR Energy Group's President and CEO, Ken Harris, stated "We had a fantastic start this month as we sold a substantial amount of natural gas to our West coast customers prior to the start of bid week. We followed up that west coast effort with bid week sales to a large utility customer in Illinois and sales to one of our largest customers in the Mid-Atlantic region. We are exhibiting continued strength in our ability to market gas to utilities across the US. Our growing relationships with huge suppliers will only enhance that capability. Our natural gas division is rapidly growing in strength. And, we had a near miss this month concerning a power/electricity sale to one of our west coast utility partners. We are dedicated to bringing the power/electricity division operational in the coming months. With both verticals operational, we should see a hefty increase in both our volumes and margins."

NDR Energy Group, a subsidiary of Universal Bioenergy, sells natural gas to many of the largest public utilities, electric power producers and local gas distribution companies in the United States. About Universal Bioenergy Inc. Founded in 2004, Universal Bioenergy Inc., is a publicly traded independent diversified energy company. bFor more information visit [www.universalbioenergy.com](http://www.universalbioenergy.com)
