Sleep 2013 Stand: M3

LYNDON DESIGN UNVEILS INNOVATIVE FURNITURE COLLECTIONS AT SLEEP

Sleep 2013 provides the perfect platform for Lyndon Design to parade its extensive collections of handcrafted furniture and to debut a line-up of inspirational and innovative new products that have been designed to wow the hotel sector. Specified widely throughout hotels across the globe, the company also aims to demonstrate exactly why it is a number one choice amongst architects, interior designers and specifiers.

New high-backed meeting area

Demonstrating Lyndon Design's ability to create successful furniture designs that satisfy both contract and hospitality sectors, is ENTENTE – a new and innovative meeting area that effectively provides relaxed and informal seating. Perfect for those hotels that cater for the discerning corporate client, ENTENTE boasts the ultimate in aesthetics, comfort and innovation. Fully equipped to meet every technological need, ENTENTE also offers advanced acoustics with enhanced privacy, whilst retaining an open plan feel.

New contemporary wing chairs

Also taking centre stage is a new two-model range of luxurious wing chairs, aptly named Mr. & Mrs. Designed in-house by Caroline Atack, the new handcrafted Mr. & Mrs. wing chairs pay respectful homage to their stately grandeur, whilst incorporating contemporary touches that make them suitable for today's hospitality and boutique hotel environment, and even the corporate arena. Designed to sit amiably alongside sofas and other furnishings, both chairs may alternatively be used as standalone pieces to make a bold design statement.

New Okki dining collection

Epitomising all that Lyndon Design stands for - quality, elegance and unrivalled British craftsmanship - is a luxury new dining furniture collection named Okki, designed by David Fox. Incorporating an upholstered chair and co-ordinating dining table, Okki's smooth curves and simple lines perfectly reflect David Fox's harmonic design philosophy. The European oak timber used for the underframe of this collection demonstrates Lyndon Design's prowess in handcrafting timber, and gives this product an exquisite finish.

New dining chair collection

Also being paraded is the Han dining chair collection – a design triumph from award-winning designer, Mark Gabbertas. Boasting a rectilinear shape and flexible finish options, Han is designed to appeal to a wide variety of design environments including corporate dining and a range of hospitality settings. Made in expertly handcrafted timber, Han consists of an exceptional structure, incorporating hidden metal tenons for rigorous support.

New Triad occasional tables collection

Completing the line-up for Sleep is Lyndon Design's new Triad occasional tables collection. Designed in conjunction with Mark Gabbertas, this collection features a bold yet elegant three splayed-leg design arrangement that cleverly unites a circular table-top with square edge detail. Each of the three tables incorporate an unusual 'dish-effect' courtesy of a 7mm bull-nose recess designed to ensure that items stay on the top surface – a practical and elegant design detail perfect for hospitality interiors. Triad is available in three heights and two finishes, and for an exciting alternative finish, the top may be specified in co-ordinating solid timber or 22mm textured white lacquer.

Commenting on its presence at Sleep, Managing Director, Tim Armitt said: “We are proud to unveil a line-up of luxurious handcrafted furniture that is befitting of Europe’s leading trade event for interior hotel products. Our product design and manufacturing capabilities are second to none and we are delighted to continue to support the hotel sector.”
