

## Latest order for Clavister's SDN/NFV offering creates global market penetration

*Örnsköldsvik, Sweden. 2018-01-11.* Clavister, a leader in high-performance network security solutions, has received a commercial order from a significant African telecom operator for its SDN/NFV security solution. As Clavister has registered orders in the Americas, Asia, Europe and now Africa, the technology can be said to be a completely globally accepted offering. "This is a very exciting situation for the company and for our cutting edge solution for mobile operators across the globe. That we're running successfully on every continent, with a fast growing installed base, is really a validation of our innovation and ability to deliver," states President and CEO John Vestberg.
