

Tigo Business offers VMware Workspace ONE to business customers in Latin America

Luxembourg, October 10, 2018 – Millicom’s Tigo Business announced today it will start offering VMware Workspace ONE to its enterprise customers in Latin America. This digital workspace platform brings a new security standard for companies that want to protect their data while also allowing for employees to bring their own devices to work (BYOD). This product is available from Tigo Business in El Salvador and Colombia today, and will become available later on in Guatemala, Honduras, Bolivia and Paraguay.

VMware Workspace ONE is an intelligence-driven digital workspace platform that simply and more securely delivers and manages any app on any device by integrating access control, application management and multi-platform endpoint management. It is available as an annual cloud subscription or a perpetual on-premises license. The VMware Workspace ONE suite of productivity apps offers seamless and more secure access to enterprise applications like corporate email, calendar, contacts, browser, and Office 365 files.

“Companies in Latin America are looking for a technology partner that can address their connectivity and security needs as they grow. By bringing Workspace ONE to our Tigo Business customers, we enable increased data security on all mobile devices that is easy to monitor and manage”, said Santiago Londoño, VP of B2B Latam at Millicom. “With Workspace ONE, companies can accelerate their digital transformation processes through a single platform strategy.”

“Businesses are increasingly turning to VMware to provide the mobility and flexibility their employees demand with the enhanced security, ease and cost-savings that IT requires,” said Rafael Vidaillet, Sr. Manager Cloud Provider Business NOLA Region, VMware. “We are pleased that Millicom, through its Tigo Business division, has selected Workspace ONE to deliver a high-performing, more secure digital workspace solution to its business customers.”
