

## Advenica signs Finnish order worth approximately MSEK 1 – takes yet a step into the public sector

Advenica, a leading European provider of cybersecurity solutions, has won an order for products and services from a customer in the Finnish public sector.

The newly signed order, worth approximately MSEK 1, includes Advenica's products and services with delivery early 2018. The customer is an organisation in the Finnish public sector. The nature and circumstances of the industry regarding the delivery and the customer means that further information about the customer will not be published.

The order is one more success for Advenica Oy, which since establishing offices in Helsinki late 2016 has developed strongly focusing on national security, the public sector and critical infrastructure customers.

*With this order we take yet a step into the Finnish public sector with our products, services and know-how. We are in an expansive phase and notice a clearly growing demand for cybersecurity solutions that meet different organisation's high demands for information security.*

*Mikael Puska, CEO, Advenica Oy*
