

Advenica grows in Europe – Austrian order worth over MSEK 3

Advenica, as a leading European provider of cybersecurity, has received a new order in Austria worth over MSEK 3 to be delivered in Q2/2018.

Mid-2017 Advenica established strategic offices in Vienna to provide high assurance cybersecurity solutions to amongst others the Austrian Defence Forces, who signed a ten-year framework agreement in 2016. As a cybersecurity partner to armed forces, intelligence agencies and security services across Europe, Advenica's patented technology has been approved to the highest security level within the EU.

The Austrian order includes Cross Domain Solutions and encryption products worth over MSEK 3 with delivery Q2/2018.

This is an important step, not only for Advenica's further growth but also to keeping Europe safe. Our Cross Domain Solutions and encryption products are military-graded solutions that raise cybersecurity considerably. Our technology isolates networks physically yet allows critical information to be communicated in a 100 % secure mode.

Markus Gursch, CEO Advenica Austria

The nature and circumstances of the industry regarding the delivery and the customer means that further information about the customer will not be published.
