

Meet SSAB at Bauma 2013

Join us at Bauma, Hall A6 Stand 423. Meet our team of experts and listen to SSABs Steel Talks about upgraded materials and services.

SSAB is a global leader in High Strength Steel with a strong focus on design, innovation, material and steel technology. We work in close cooperation with our customers to find the best solutions.

IT'S EASY TO UPGRADE - A combination of steel, people and knowledge.

Listen to our experts talk about how customers benefit from SSABs upgrades, knowledge and design with new models and materials.

Learn more about SSABs High Strength Steels new products and services like Shape. We are also going to talk about SSABs worlds widest product range for wear plate like Hardox from XS-XL, 0.7-160 mm and Domex, one of our construction steels now with a product range from 240- 1100 MPa.

– We are excited about new business opportunities when it comes to upgrading to high strength steels. A big part of being at the fair is also to meet our existing customers to discuss how we can help them even more when it comes to upgrading potentials, says Magnus Hasselgren sales director Western Europe.

Our test panels is going to be equipped with iPads showing different products to the end user in a product catalogue together with sample of real product samples. We are also going to talk about SSABs new service, SSAB Wear Solutions, where we act as a partner to help costumers analyze, manufacture and installing SSABs steel products. Let us see how you can upgrade your design and material to maximize your wear solution.

SSAB APP

Stay upgraded with our app. Learn more about our products, data sheets, events and bending force calculator. It also contains stock information in EMEA for Hardox and Toolox products, bar code scanner to identify our material, making estimates on production savings in the welding process with WeldSaveCalc and improved functionality.

SSAB Steel Talks

Date: April 15-19
